

INFORMATION FOR RECIPIENTS AND CAREGIVERS

MRESVIA (pronounced em res' vee ah)

(Respiratory Syncytial Virus Vaccine)

Please read this information sheet before getting MRESVIA. This summary is not intended to take the place of talking with your healthcare provider. If you have questions or would like more information, please talk with your healthcare provider.

What is MRESVIA?

MRESVIA is a vaccine to protect you against lower respiratory tract disease caused by Respiratory Syncytial Virus (RSV).

MRESVIA is for people 60 years of age and older. Vaccination with MRESVIA may not protect all people who receive the vaccine.

MRESVIA does not contain RSV. MRESVIA cannot give you lower respiratory tract disease caused by RSV.

Who should not get MRESVIA?

You should not get MRESVIA if you had

- a severe allergic reaction to any ingredient in MRESVIA (see **What are the ingredients in MRESVIA?**)

What should I tell my healthcare provider?

Tell your healthcare provider about all of your medical conditions, including if you:

- have any allergies
- had a severe allergic reaction after receiving a previous dose of any other vaccine
- have a fever
- have a bleeding disorder or are on a blood thinner
- are immunocompromised or are on a medicine that affects your immune system
- have received any other RSV vaccine
- have ever fainted in association with an injection

How is MRESVIA given?

MRESVIA is given as an injection into the muscle.

What are the risks of MRESVIA?

There is a very small chance that MRESVIA could cause a severe allergic reaction. A severe allergic reaction would usually occur within a few minutes to one hour after getting a dose of MRESVIA. For this reason, your healthcare provider may ask you to stay for a short time at the place where you received your vaccine. Signs of a severe allergic reaction may include:

- Trouble breathing
- Swelling of your face and throat
- A fast heartbeat
- A rash all over your body
- Dizziness and weakness

Side effects that have been reported in clinical trials with MRESVIA include:

- Injection-site reactions: pain, underarm swelling or tenderness in the same arm of the injection, swelling (hardness), and redness
- Fatigue, headache, muscle pain, joint pain, chills, nausea or vomiting, fever, hives, and facial paralysis

These may not be all of the possible side effects of MRESVIA. Ask your healthcare provider about any side effects that concern you. You may report side effects to the Vaccine Adverse Event Reporting System (VAERS) at 1-800-822-7967 or <https://vaers.hhs.gov>.

What are the ingredients in MRESVIA?

MRESVIA contains the following ingredients:

- messenger ribonucleic acid (mRNA)
- lipids (SM-102, polyethylene glycol dimyristoyl glycerol [PEG2000-DMG], cholesterol, and 1,2-distearoyl-sn-glycero-3-phosphocholine [DSPC])
- tromethamine
- tromethamine hydrochloride
- acetic acid
- sodium acetate trihydrate
- sucrose
- water

MRESVIA does not contain preservative.

What if I have additional questions?
